JULY 2018

National Lighting Bureau Releases Report On Outdoor Lighting

Shepherdstown, WV: "Outdoor lighting at night provides many obvious and accepted benefits to society, including the ability to safely travel on roadways, facilitate commerce, enable outdoor activities such as recreation, provide for the lighting of architecture and landmarks, and provide for social and personal security."

New York City Council Passes Controversial Waste Bill

A long-awaited—and often times contentious—bill that would cap the amount of waste handled by three New York City communities passed by a City Council vote of 32-13 this week.

The Intro 157 legislation, known as the "waste equity bill," targets North Brooklyn, South Bronx and Southeast Queens—home to 26 of the city's 38 waste transfer stations.

Electronic Recycling Grows With Surge in E-Waste

The Rochester Institute of Technology (RIT), Staples Sustainable Innovation Lab, and the Consumer Technology Association, recently completed a comprehensive study to create a baseline "material footprint" of consumer technology used in U.S. households from over the last 25 years and how product and consumption trends are influencing the waste flows of this stream.
